Italian

Beginner in written and spoken

Gonzalo Stoll

Hello! My name is Gonzalo. I'm an Argentinian/Italian currently living in Copenhagen, Denmark. I'm a Frontend Developer with a severe taste for clean/readable code, a keen eye for visual details and a strict discipline when writing code. I've worked with HTML, CSS (Scss) and JavaScript for more than 5 years, and also taught several seminars about them.

I'm the kind of worker who won't stop until there is a pixel perfect solution on screen with the minimum and most reusable code, and will continuously look for new bugs to solve, or new features to improve. I'm always looking for something new to do.

Some aspects of my personality: I enjoy teamwork and team effort. I'm responsible, open, agile and ambitious. I'm also a fast learner and organised hard worker. Plus, I absolutely love films and series (writing screenplays is my hobby).

Hope to hear from you soon!
